

ACHIRAYU NUALSAKULWAT

Internship Position: Back End Developer

PERSONAL INFORMATION

Name: Achirayu Nualsakulwat

Nickname: achi

Age: 21

CONTACT

Phone: 0621980591

Email : achirayu19@gmail.com

Address : Pathumthani , Thailand

SKILL

- Python
- JavaScript
- HTML / CSS
- SQL
- React
- Node.js / Express.js
- FastAPI
- MySQL
- RAG

EDUCATION

Sripatum University

Information Technology

Computer Science & Software Innovation (CSI)

CGPA 3.18

2023 - 2027

LANGUAGES

- Thai (Native)
- English (Basic)

TOOLS

- Git / GitHub
- Postman
- Canva
- Visual Studio Code

About Me

Information Technology student interested in web and software development.

Experienced in developing projects using React, JavaScript, C#, ASP.NET Core, Node.js, MySQL, and Python. Interested in learning new technologies, gaining real-world experience, and improving development skills through an internship.

Projects

Tax Chatbot

Python + FastAPI + FAISS + RAG

Year 3 Semester 2

- Developed a Thai-language tax chatbot using Retrieval-Augmented Generation (RAG).
- Built semantic search using FAISS and multilingual embeddings.
- Developed REST APIs with FastAPI for chatbot interaction.

Tid_Code

Year 3 Semester 2

React + Vite + React Bootstrap + Axios + JWT + REST API

- Developed an online learning platform where users can browse, purchase, and enroll in courses.
- Implemented a structured course learning system with video lessons organized by chapters.
- Developed interactive quizzes and workshops with attempt tracking, scoring, and pass/fail results.
- Implemented course completion and certificate functionality for users who successfully complete courses.
- Built user authentication and protected course content using JWT-based authentication.
- Developed reusable React components and responsive interfaces for course browsing, learning, quizzes, and user interactions.
- Integrated frontend applications with REST APIs using Axios for authentication, course data, quizzes, and learning progress.
- Implemented learning progress and quiz history to allow users to track their course activities.

Soft Skills

- Problem Solving
- Time Management
- Ability to Work Under Pressure
- Teamwork

Hard Skills

- Frontend: HTML5, CSS3, JavaScript, React, Vite
- Backend: Node.js, Express.js, C#, ASP.NET Core, FastAPI
- Database: MySQL
- API: REST API, Swagger, Postman
- AI / Machine Learning: Python, RAG, FAISS, YOLOv8
- Version Control: Git, GitHub
